SUMMARY

DevOps Engineer with **7+ years of experience** in **cloud-native infrastructure automation and deployment**. Skilled in **orchestrating containerized applications** using Docker and Kubernetes, and managing **infrastructure as code (Terraform)** for scalable and reliable environments. Skilled in designing **end-to-end CI/CD pipelines** with Jenkins, GitLab CI/CD, and Azure DevOps, integrating version control, and enabling **continuous delivery**. Proficient in **cloud operations (Azure & AWS)**, implementing monitoring, logging, and alerting solutions to ensure **high availability, performance, and security**. Focused on **scalable architecture, system reliability, and operational efficiency** across multi-environment deployments.

SKILLS

- CI/CD pipeline design and automation (Jenkins, GitLab CI/CD, Azure DevOps)
- **Containerization** with Docker
- Container orchestration with Kubernetes
- Infrastructure as code (IaC) using Terraform.
- Shell Scripting, Python
- **Cloud Infrastructure Management** (Microsoft Azure, AWS)
- Configuration management and provisioning (Terraform)
- Monitoring and logging solutions (Prometheus, Grafana, Azure Monitor)
- Source code management (SCM) using Git, GitHub, Bitbucket, and GitLab

EXPERIENCE

DEVOPS ENGINEER, IT ANALYST, 01/2025 - Current ***Tata Consultancy Services***, Kolkata

- Designed and provisioned a scalable Azure Cloud infrastructure (VMs, storage, networking, security groups) using Terraform for Infrastructure as Code (IaC).
- Automated deployment of Nexus **Artifactory** on Azure Virtual Machines with Terraform, ensuring consistent, repeatable, and version-controlled infrastructure setup.
- Implemented modular Terraform scripts for reusable infrastructure components, improving efficiency, and reducing configuration drift.
- Configured Azure Virtual Networks, subnets, NSGs, and load balancers to enable secure and high-availability access to Artifactory services.
- Integrated **Terraform state management** with Azure Storage and remote backend, ensuring collaboration and disaster recovery readiness.
- Applied **RBAC (Role-Based Access Control)** and security best practices for controlled access to Azure resources and Artifactory repositories.
- Optimized deployment pipelines by integrating Terraform into **CI/CD workflows**, enabling faster infrastructure provisioning and updates.
- Monitored and maintained deployed Artifactory instances, ensuring uptime, scalability, and secure storage of build artifacts.

DEVOPS ENGINEER, SENIOR SOFTWARE ENGINEER, 11/2018 - 12/2024 ***Accenture***, Kolkata

- **IX_Auto_Cluster_Projects (DevOps):** Implemented CI/CD pipelines using Jenkins, deployed containerized applications on **Kubernetes**, and managed **Docker images and registries** for scalable software delivery.
- Automated **AWS infrastructure** using Terraform, deployed MTK installer, configured email alerts, and resolved cluster security vulnerabilities.
- Developed and scheduled **batch jobs** in AWS clusters to optimize cost and resource usage.
- **Fiat CNHI Digital HUB:** Provisioned and managed Azure and AWS cloud resources, including VMs, S3 buckets, IAM roles, security groups, and VPCs.
- Built **Azure DevOps pipelines** to automate Docker image builds, push to ACR, and deploy to AKS with automated testing.
- Implemented **event-driven architectures** using AWS EventBridge and secured Lambda functions with IAM policies.
- **Vodafone (Oracle Siebel):** Automated reporting and pre-deployment testing, improving SLA compliance and stakeholder communication.
- Automated OASP application using **Selenium Python**, reducing manual effort and improving productivity.
- Proficient in **Terraform, Docker, Kubernetes, Jenkins, GitLab, Azure DevOps, Prometheus, Grafana, AWS (EC2, S3, ASG, ELB, R53, IAM)**.
- Collaborated across **SDLC phases** from requirement gathering to production releases, ensuring reliable and secure software delivery.

EDUCATION AND TRAINING

***B.P.PODDAR INSTITUTE OF MANAGEMENT TECHNOLOGY**, Kolkata, 07/2018*
B.Tech: **Electronics And Communications Engineering**

CERTIFICATIONS

- **AWS Certified Solutions Architect – Associate**
- **HashiCorp Certified: Terraform Associate (003)**
- **Microsoft Certified: Azure AI Fundamentals (AI-900)**
- **Microsoft Certified: Azure Fundamentals (AZ-900)**
- **GitHub Administrator Certification (GH-100)**
- **GitHub Co-Pilot Certification (GH-300)**
